IMPORTANT - BAL Rating is based on AS3959 and demonstrates compliance for the frame only. It provides no compliance for the door fitted into the frame or for the complete unit. Our BAL obligations are quite complex. Would be good to catch up some time with this.

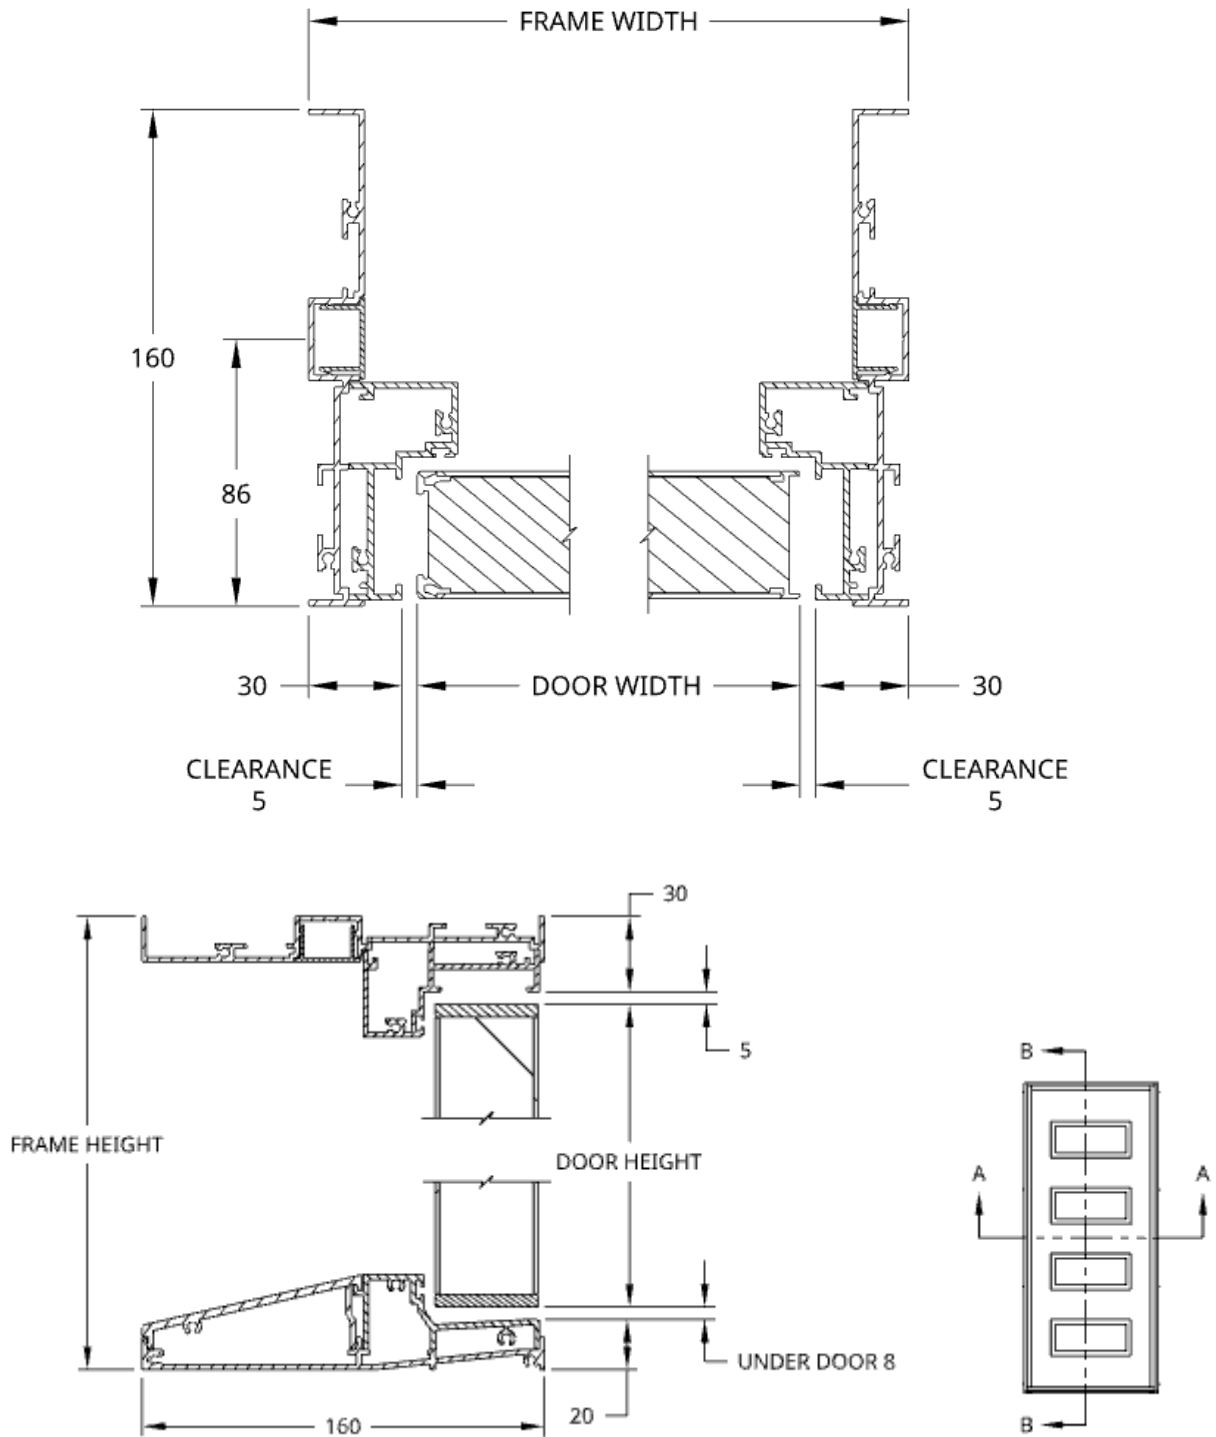

- BAL**
- Frame complies up to BAL40 "deemed to comply" where unglazed. Glazing is allowed - 5mm Toughened glass must be used on the exterior pane. The interior pane can be 5.38 Laminated. The sidelites MUST be screened or protected with shutters.
  - When glazed, with no screens or shutters, frame complies up to BAL19.

- Glazing**
- Unless the frame is BAL rated glass must be at least 5.38 Laminated or 4mm Toughened.
  - Double glazing must be between 18 and 20mm thick.
